When at the Colofield recently I had
an opportunity of talking over this
matter with Mr O'Donnell & Mr
Srikantavarma Esq. My say that
it is satisfactory to have the Fortified
Office under Board when any questions
regarding General Hospital matters
comes up for notice, and there is no
intention whatever to take up more of
his time than would be involved
by attending the Board meetings half a
dozen times a year. On questions of
Hygiene pure & simple the Col. Health
Officer would still remain the
Authority. In view of these guarantees
I am willing to waive the objection I raised
to the ~~the~~ Med Officer having a say
in the Land Army Board.

Dated Kolar, 18th December 1909.

With reference to your D. O. dated the 29th September 1909, anent the appointment of the District Medical Officer, Kolar Gold Fields, as an additional ex-officio member of the Kolar Gold Fields Sanitary Board, I beg to state, for the information of Government, as follows:-

2. Under Rule 1, Section 1 of the Special Rules framed, under the Mysore Mines Regulation, for the administration of the Kolar Gold Fields Sanitary Board, it is obligatory to maintain an equal

For the proper and efficient administration of these rules in the said local area, there shall be formed a Special Local Board independent of the Local Fund Board of the Kolar District, and styled 'The Kolar Gold Fields Sanitary Board', which shall consist of six ex-officio and six non official members!

number of ex-officio and non official members. When the Rules were first framed in

1899, the Board consisted of 3 ex-officio and 4 non official members evidently with a view to give greater scope to those interested in that local administration, which, in 1900, was modified to 4 ex-officio and 4 non official members. Subsequently the Board was strengthened in 1901, with 5 ex-officio and 5 non official members, which was again raised to 6 and 6 in 1905, maintaining all along a sense of equilibrium, and not at any time giving an official majority from the very commencement.

3. As indicated in your D. O., I had an opportunity of discussing this subject with the members of the Board, at our last meeting, when all of them, especially the non official members felt strongly that the District Medical Officer should be brought on the Board, in addition to the Health Officer and that another non official member should also be permitted to be added for reasons already explained. I therefore request that sanction to the proposals contained in my official letter of the 14th June last, may kindly be obtained.

Submitted to His Highness.

The appointment of the Health Officer of the Kolar Gold Fields, as an ex-officio member of the Sanitary Board in place of the Principal Government Medical Officer of the Kolar Gold Fields (District Medical Officer), was sanctioned by His Highness in order dated 3rd March 1909, and notified in Notification No. 8812/L.B.245-08-2 dated 11th March 1909.

A

2. With ^Oreference to this, the President of the Sanitary ^OBoard represented that in recommending the Health Officer ^Ofor a seat on the Board, it was not contemplated that the District Medical Officer should be displaced, and requested sanction to the latter's retention on the Board, as his services were always found very necessary and useful. He further requested sanction to the nomination of Mr. C.T. Roberts, the Chief Engineer of the Champion Reef Gold Mining Company as an additional non-official member, as this would maintain the necessary equilibrium between the number of official and non-official members under para 1 of the Rules ⁷dated 10th June 1901.

3. The Senior Surgeon was consulted in the matter, and, as he was not in favour of the proposal, Government in their Proceedings dated 28rd July 1909, expressed regret that they were not prepared to sanction the proposal of the Board, as it was undesirable to increase the total number of members on the Board, or to have a second Government Medical Officer on it.

4. The President has again written and asked for a reconsideration of the order. He states that the matter was discussed at the last meeting of the Board and that ~~the~~ ^O members were of opinion that it was very desirable ^I to retain the District Medical Officer ^O on the Board so ^O that he may keep himself in touch with matters sanitary. He also states that this would be especially needful in the large area, if the Health Officer were to go on leave or fall sick, when the District Medical Officer would probably have to act for him, when, bereft of all local knowledge or information on the subject, he would find himself non-plussed.

5. The Senior Surgeon having again been consulted, states that when at Gold Fields recently, he had an opportunity of talking over this matter with Dr. O'Donnell and Mr. Srikanteswara Aiyar, that they

b 2 - office v. 12

say that it is satisfactory to have the Government Medical Officer on the Board when any question regarding general hospital matters comes up for notice, and there is no intention whatever to take up more of his time than would be involved by attending the Board meetings half a dozen times a year, that on questions of Hygiene pure and simple the Government Health Officer would still of course remain the authority and that in view of these guarantees he is willing to waive the objections he advanced to the Medical Officer having a seat on the Sanitary Board.

6. It is accordingly proposed to amend Rule 1 of the Sanitary Rules, so as to allow of the appointment of the District Medical Officer as an ex-officio member and that of an additional non-official member, (in the present case of Mr. Roberts).

7. Both the Councillors are agreeable to these proposals.

8. The accompanying draft orders may be approved.

Sir,

Flag
Adverting to Government Proceedings No. 875/L.B. 245-08-5 dated the 23rd July 1909, declining to sanction the proposal of the Sanitary Board in regard to the retention of the District Medical Officer as an Ex-Officio member of the Board, I have the honor to state that the matter was discussed at the last meeting of the Sanitary Board on the 20th instant. The members were of opinion that it is very desirable to retain the District Medical Officer on the Board, so that he may keep himself in touch with matters sanitary. This would be especially needful, in this large area, if the Health Officer were to go on leave or fall sick, when the District Medical Officer would probably have to act for him, when bereft of all local knowledge or information on the subject, he would find himself nonplussed.

2. The Board would also like to point out that this would not take up much of his time. The Board meets 6 or 7 times a year, and the meetings do not, as a rule, last more than an hour or an hour and a half.

3. Under these circumstances, I request that Government be moved to kindly reconsider their order set forth in the Government Proceedings under reference.
